

burda download pattern cooking glove 8125B instructions (very easy)

Paper cut for ANSI A (German DIN A4) prints:

The patterns are printed out on 3 sheets with a thin frame. Wait, until all sheets are printed out. Arrange the sheets so that they fit together (see extra page with the overview of the prints). Cut off the single sheets on the upper and right edge along the thin frame lines. Begin with the left lower sheet and then glue the parts in the frame lines together precisely. Cut out the patterns.

CUTTING OUT

You need:

Single-colored and patterned fabric remnant, volume fleece, 18 inches (45 cm) bias, pre-seamed strap, finished width ½ inch (1 cm)

SEAM AND HEMLINE ALLOWANCES are

included on an average:
½ inch (1 cm) for all edges.

Cut the pattern twice from single colored and patterned fabric (reversed left to right or mirror image like), and additionally cut twice from volume fleece.

SEWING

Cooking glove

1 Baste a layer of each material as fabric, volume fleece and single colored fabric on top of each other in a way that you make up two mirror imaged gloves.

2 Lay the pattern pieces on top of each other, the patterned pieces as the inside of the glove. Stitch the lateral edge (thumb side) on top of each other, around 4 inches (10 cm) along the edge. Cut allowances to ¼ inch (0.5 cm), neaten altogether.

3 Enclose the upper glove edge using the pre-seamed strap: Fold the pre-seamed strap along the fold line (center line) and press. Position the glove fabric edge between the two strap edges until it meets the center notch/fold. Pin the strap that encloses the glove from both sides. Stitch. Press the rest of the folded bias strap and stitch the edges together. Make a noose and baste onto an end of the enclosed upper edge.

4 Position the other sides of the pattern pieces nicely on top of each other and stitch the edges, now the noose will be enclosed on the upper edge. Trim allowances to ¼ inch (0.5 cm) generally and at the inner rounding at the thumb to 2 mm (4a). Neaten allowances altogether. Fold glove inside out.
